## Donate to Help Relief Efforts in Haiti

Working people and unions from around the world are responding in a big way to the earthquake disaster in Haiti. The devastation caused by the quake has killed tens of thousands of Haitians and created an incredible need for relief supplies. IAM members who want to help can donate to several charities that are being supported by the labor community.

The IAM Retirees, Community and Membership Services Department and the AFL-CIO recommend donations to the following charities:

- **Doctors Without Borders**
